Subject: Investor Presentation

Dear Sir/ Madam,

Pursuant to Regulation 30 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith the copy of presentation made to analysts and investors in connection with Un-Audited Standalone & Consolidated Financial Results for quarter ended 30th June, 2022.

You are requested to take the information on record and oblige.

Thanking You

Yours Faithfully,

For Natural Capsules Limited

Shilpa Burman
Company Secretary & Compliance Officer

Company Overview

Introducing Natural Capsules Limited (NCL)

Natural Capsules Limited (NCL) is a hard capsule shell manufacturer, who pioneered manufacturing of vegetarian capsules in India and is the second largest Indian manufacturer for gelatin capsules. The company was incorporated as a Public Limited Company in 1993 at Bangalore, and it further expanded its operations to Pondicherry in 2003. The company is now foraying into API manufacturing with complex high-end patented technology developed in-house, under its wholly owned subsidiary company Natural Biogenex Private Limited.

NCL prides itself on its abilities to provide turnkey solutions to all its customers.

VISION

To become the global leader for supply of capsules, providing impeccable services all across the globe.

MISSION

- To consistently innovate and manufacture products key to market's and customer's expectation
- To consistently provide highest quality products to its customers across the globe
- To become an integrated enterprise of global distinction

Exports Revenue in
FY22

* BCPA – Billion Capsules per Annum

Our Journey

1993- 2014: EARLY SUCCESSES AND A PERIOD OF EXPANSION

* BCPA – Billion Capsules per Annum | MCPD – Million Capsules per Day

Our Journey (contd.)

2015 – 2018: THE HURDLES WE FACED ON THE WAY

2015 – 18

- Fall in oil and commodity prices led to economic slowdown in African countries and caused a decline in export of pharmaceutical products and capsules from India. This led to a drop in demand for our products, which were selling well in Africa earlier. The selling prices gradually decreased as well, leading to drop in margins over a period of 3 years (FY16-FY18). NCL's strategy of focusing on exports proved to be counterproductive, during this period.
- NCL was quick to refocus on domestic markets, but soon demonetization and the implementation of GST in India caused disruption in the domestic pharmaceuticals industry, which led to bouts of severe drop in demand.

2019 ONWARD: THE BEGINNING OF A NEW AND IMPROVED NCL

2019 ONWARD

- 2019 onward NCL witnessed an increase in demand in both domestic and export markets, which led to improvement in margins.
- NCL also upgraded one of its capsule manufacturing lines to produce 2.5 MCPD (from its earlier capacity of 1.0 MCPD).
- The company's continued focus on R&D, in collaboration with other partners, led it to invent a new generation of capsule manufacturing technology as well.
- NCL replaced one of its old machines at Bangalore and installed its first new generation machine producing 4.8-5.0 MCPD (instead of the earlier capacity of 1 MCPD). The new generation machines are the fastest machines to manufacture capsules globally.

GOING FORWARD

By **Q1FY23**, new generation machines were commissioned, which replaced the older machines, and the current installed capacity stands at **16.2 BCPA**

Four new generation machines to be commissioned by **Q4FY23** which will enhance installed capacity to **24.1 BCPA**

Further attempt to make next generation machines to produce **7.5 MCPD**

Product Offerings

Natural Capsules Limited manufactures a vast array capsules, including vegetarian capsules which they have pioneered in India.

The company is now foraying into API manufacturing with complex high-end patented technology developed in-house, under its wholly owned subsidiary company Natural Biogenex Private Limited.

CAPSULES

- Hard Gelatin Capsules shells
- Hard Cellulose Capsules shells
- Others
 - Special Characteristic Variants
 - Shiny Capsules
 - Sweet Capsules
 - Fast Release Capsules
 - Regulatory Variants
 - SLS free Capsules
 - Preservative free Capsules
 - TSE free Capsules

APIs

Three key steroidal API products (as approved under PLI scheme)

- Prednisolone & Derivative salts
- Betamethasone & Derivative Salts
- Dexamethasone & Derivative Salts

Global Presence

Natural Capsules exports to **22** countries across **5** continents, bringing in sizable revenue from its export.

Business Canvas

Capsules Segment

- Higher sales in unregulated markets led to volatility in margins
- Old technology machines resulted in lower operating efficiencies

With almost three decades of experience in the industry, Natural Capsules Limited is a leading manufacturer of hard capsules in India, its products are exported to regulated and unregulated markets across the globe, following stringent applicable rules and regulations.

REVENUES & EBITDA MARGINS

(IN ₹ CRORE & %)

CAPACITY & CAPACITY UTILISATIONS

(IN BCPA & %)

MANUFACTURING FACILITIES APPROVED BY

2nd largest

Indian manufacturer of gelatin capsule

2 manufacturing

Facilities at Bengaluru and Pondicherry

16.20 BCPA

Capsules per annum manufacturing capacity

1st manufacturer

Of vegetarian capsules in India

Enhancing Capacities

- New machines developed in **technical collaboration DBDS Robotics Private Limited**
- The new machines installed will be the **fastest available machine** to manufacture hard capsules

Natural Capsules Limited has undergone recent CAPEX, to support its existing manufacturing capacity and to enable the company to capture market share in regulated markets.

CAPSULES MANUFACTURING CAPACITY

(IN BILLIONS)

The ability to deliver faster will help Company to **attract large volume customers** and yield better margins by optimizing manufacturing cost per unit

₹ 38 Crores planned capital expenditure for enhancing capacity to 24.1 Bn capsules per annum

Brownfield capex by adding 6 new machines at Bengaluru facility

Project funded through a mix of debt and equity

- ₹ 18 Crores bank borrowings @6.4% per annum &
- ₹ 20 Crores from internal accruals

~3x asset turns from incremental capacities at optimum capacity utilisation

Q4FY23 expected commercialisation of incremental capacities

Incremental capacities will be targeted towards **large volume pharmaceutical customers and new export markets**

API Segment

Natural Capsules Limited is now foraying into the API business segment through its wholly owned subsidiary - Natural Biogenex Private Limited (NBPL) incorporated in 2020. The APIs that will be manufactured are, Prednisolone, Betamethasone and Dexamethasone and their derivatives.

KEY DEVELOPMENTS

AUG 2018	JUL 2019	OCT 2019	AUG 2020	FEB 2021
				Awarded Three PLI applications for Dexamethasone, Betamethasone and Prednisolone.
			<ul style="list-style-type: none"> Achieved process improvements over existing knowhow in respect of effluent and de-foaming agents. Obtained Test Drug Licenses for Steroidal APIs. 	
	<ul style="list-style-type: none"> Achieved lab scale production of hydro cortisone from 9OHAD. 	<ul style="list-style-type: none"> Filed patent for innovative process for manufacture of 9OHAD 		
	<ul style="list-style-type: none"> Started second fermentation for manufacture of Prednisolone. 			
Started R&D center to validate fermentation and synthesis technology to manufacture steroidal APIs using unique microbe.				

Greenfield Capex at Tumkur, spread across 5 acres

1st integrated facility in India for manufacturing of Steroidal API's using fermentation and synthesis chain of reactions

Facilities are being set up in compliance with WHO GMP(Geneva), USFDA and EU GMP certification guidelines

Zero Liquid Discharge manufacturing facility

3 approvals for steroidal API's under the PLI scheme of Government of India for bulk drugs

API Segment (contd.)

INR 115 Crores - planned capital expenditure for setting up the facility

~ **2.7x asset turns** from incremental capacities at optimum capacity utilisation

Project funded through a mix of debt and equity

- INR 60 Crores bank borrowings @6.4% pa
- INR 24 Crores from internal accruals
- INR 31 Crores from right issue

Commercial production to begin by Q1FY24

THE FOLLOWING PRODUCTS AND CAPACITIES HAVE BEEN APPROVED UNDER THE PLI SCHEME

DEXAMETHASONE

10 MT

Planned Capacity

19 MT

Imports to India in FY22

- NCL will be the **only manufacturer** of this product in India

BETAMETHASONE

12 MT

Planned Capacity

20 MT

Imports to India in FY22

- NCL will be the **only manufacturer** of this product in India

PREDNISOLONE

15 MT

Planned Capacity

39 MT

Imports to India in FY22

- NCL will be **one of the two manufacturers** of this product in India

Efforts will be focused on catering to the domestic demand by substituting the imported inputs.

Production Linked Incentive (PLI) Scheme

With a view to attain self-reliance and reduce import dependence in critical APIs, a scheme called "Production Linked Incentive (PLI) Scheme for promotion of domestic manufacturing of critical Key Starting Materials (KSMs)/ Drug Intermediates (DIs) and active Pharmaceutical Ingredients (APIs) In India" has been approved by the Government of India on 20th March, 2020.

- The scheme intends to boost domestic manufacturing of identified KSMs, Drug Intermediates and APIs by attracting large investments in the sector and thereby reduce India's import dependence in critical APIs.

- A committee on drug security constituted by the Department of Pharmaceuticals collated the details of APIs imported in the country and identified 53 APIs for which the country is heavily dependent on imports.

- The scheme categorises four target segments covering 41 products.
- The 3 products to be manufactured by NCL fall under the 2nd category of Fermentation based niche KSMs/ Drug Intermediates / APIs

Financial incentive under the scheme shall be provided on sales of identified products for six (06) years:

- For fermentation-based products, incentive for FY 2023-24 to FY 2026-27 would be 20%, incentive for 2027-28 would be 15% and incentive for 2028-29 would be 5%.

The Company expects to receive an incentive amounting to

~ ₹67 Crores
over

the course of 6 years, which effectively de-risks the Company's investments significantly

Focus on R&D

NCL strongly believes in investing in R&D, to stay ahead of its peers and to consistently innovate. The Company's recent entry into the API business is a testament to its firm belief in R&D.

R&D SPENDS & R&D AS A % OF REVENUE

(IN ₹ CRORE & %)

KEY AREAS OF RESEARCH

-  New product development for steroidal and hormonal range of API's
-  Process improvements for enhancing yields
-  Development of new process for manufacturing existing products

2 DSIR

Recognised state of the art R&D facilities

15

Team members focusing on product innovations and product yield efficiencies

1 patent

Granted, 1 patent under approval, 2 patents under filing - as a result of strong innovation in technology and manufacturing processes

Team

Is qualified and experienced in scaling up steroidal APIs to commercial scale

ESOPs

have been issued to senior members of R&D team to align the long-term interests

naturalcapsules.com

03

Sustainability

Sustainability Initiatives

NCL believes in contributing towards environment and social improvement.

In its three decades of existence, the Company has engaged in multiple efforts to become more green and sustainable. NCL has also contributed significantly to the development of the people from around the Company's manufacturing sites.

SUSTAINABLE SITES

- Zero discharge facilities
- Solar power generation
- Solar concentrated heat generation funded by IREDA and 1st company to receive UNIDO grant for patented solar concentrated heat generation dishes in India

SUSTAINABLE PRODUCT PORTFOLIO

- Recycling of own waste for manufacturing gelatine capsules
- Recycling of water from effluent treatment plant

SUSTAINABLE COMMUNITIES

- COVID-19 relief work at Pitchaiveerampet, Pondicherry (food and medicine distribution) and Attibele, Bangalore (medicine distribution)
- Undertook infrastructure work in nearby communities, such as building a community temple

Investment Merits

Growth Drivers

Capacity enhancement with **state-of-the-art machinery** in capsules division, enabling operational efficiencies and driving profitability

Being the **only backward integrated manufacturer of steroidal APIs in India**, the Company plans to gain significant market share domestically

Exploring opportunities to set up capsules manufacturing facilities in foreign/domestic markets to ensure quick supply to customers

The Company will benefit from strong industry tailwinds on the back of the China Plus One strategy. This will further be amplified by robust government incentives (PLI scheme)

Focusing efforts on regulated markets and marquee pharma clients for capsules business, to stabilise its topline and enhance its margins

Strong focus on R&D will lead to the development of new products and processes, It will also enable operational efficiencies by increasing the yields of existing products

Regulatory approvals for the upcoming API facility will enable long term customer association leading to improved margins

Strategic Priorities

NCL is geared to bring about monumental changes in its approach towards its business. With the ongoing CAPEX, the Company is enabling itself to become the market leader in capsules business and positioning itself as a dominant player in the domestic steroidal API market.

STRATEGIC PRIORITY

- Positioning the business to reduce margin volatility
- Continue to grow sales of Capsules in regulated markets and expand global presence
- Introduce new variants of capsule products
- Develop new value-added molecules in steroidal and hormonal range of APIs
- Investing in technology and manufacturing processes to attain manufacturing efficiencies and competitive advantage
- API facility approved by regulatory bodies

ACTIONS TAKEN

- Collaborating with buyers who procure large quantities of capsules on a sustained basis
- Tying up with customers who sell finished formulations in regulated markets
- Sales and marketing team reaching out to new customers in new geographies
- Working on new varieties of capsules such as pullulan capsules
- Strong focus on R&D will enable new products to be developed every 18 months
- Investing in R&D to further improve the output of capsule manufacturing machines
- Facility is being set up and quality management systems are being deployed to ensure compliance to the stringent requirements of the regulatory bodies

Management Commentary

A favourable demand environment and increasing operational capacity give us the confidence that we will be able to build on our current position and deliver strong financial results in the times to come."

Mr. Sunil Mundra

MANAGING DIRECTOR
NATURAL CAPSULES LIMITED

"I am pleased to provide you with an update on our performance during the quarter. We have had a strong start to FY23, continuing our growth momentum from last year. The increase in topline was driven by a combination of higher realisation and higher volumes. However, the new line added became operational only in June, moderating our volumetric growth for the quarter. In addition, we witnessed a slow intake of new orders in domestic markets for our capsule business; however, traction in export markets remained strong. Domestic demand has rebounded in the second quarter, and we expect the strong momentum to continue through the year. With the ramp-up of the newly commissioned line and incremental capacity scheduled in Q2, we anticipate strong volumetric growth in the second half of the fiscal year. Furthermore, as we continue to add newer generation machines, we remain optimistic about further enhancing our profitability margins.

We remain on track with our CAPEX plans in the API business and expect to begin commercial production in Q1FY24. As previously reported, due to cost overruns, we have increased our CAPEX guidance for the API business from ₹ 98 crores to ₹ 115 crores. This will undoubtedly affect our expected asset turns on the project. However, I am pleased to report that we already have Letters of Intent in place from buyers in the United States, Japan, and the domestic market for more than ₹ 100 crores on an annualised basis. With this, we remain confident of exceeding 50% capacity utilisation in the first year of operation, enabling us to cash breakeven.

A favourable demand environment and increasing operational capacity give us the confidence that we will be able to build on our current position and deliver strong financial results in the times to come."

CAPEX Tracker

Natural Capsules is geared to make significant capital expenditures in the quarters to come and is on track with its capsule business. The Company will focus on ramping up its endeavours in its API business in the coming quarters.
